

MACHINERY RENTAL WITH OPERATOR

Lifting of loads, people and concrete pumping

Solutions for construction sites, industry, infrastructure and urban services.

transgruma.com

WHO WE ARE

Specialists in machinery rental with operator

We are a company specialized in machinery rental with operator for load lifting, personnel lifting, concrete pumping, special transport and machinery relocation.

Over **37 years** building trust in projects where safety, precision and responsiveness are decisive.

WHAT WE BRING TO THE CLIENT

A single supplier for complex jobs

A single supplier to solve complex jobs with our own equipment, specialized operators and technical advice.

Own equipment

Fleet of technical, specialized equipment, available and constantly renewed.

Specialized operators

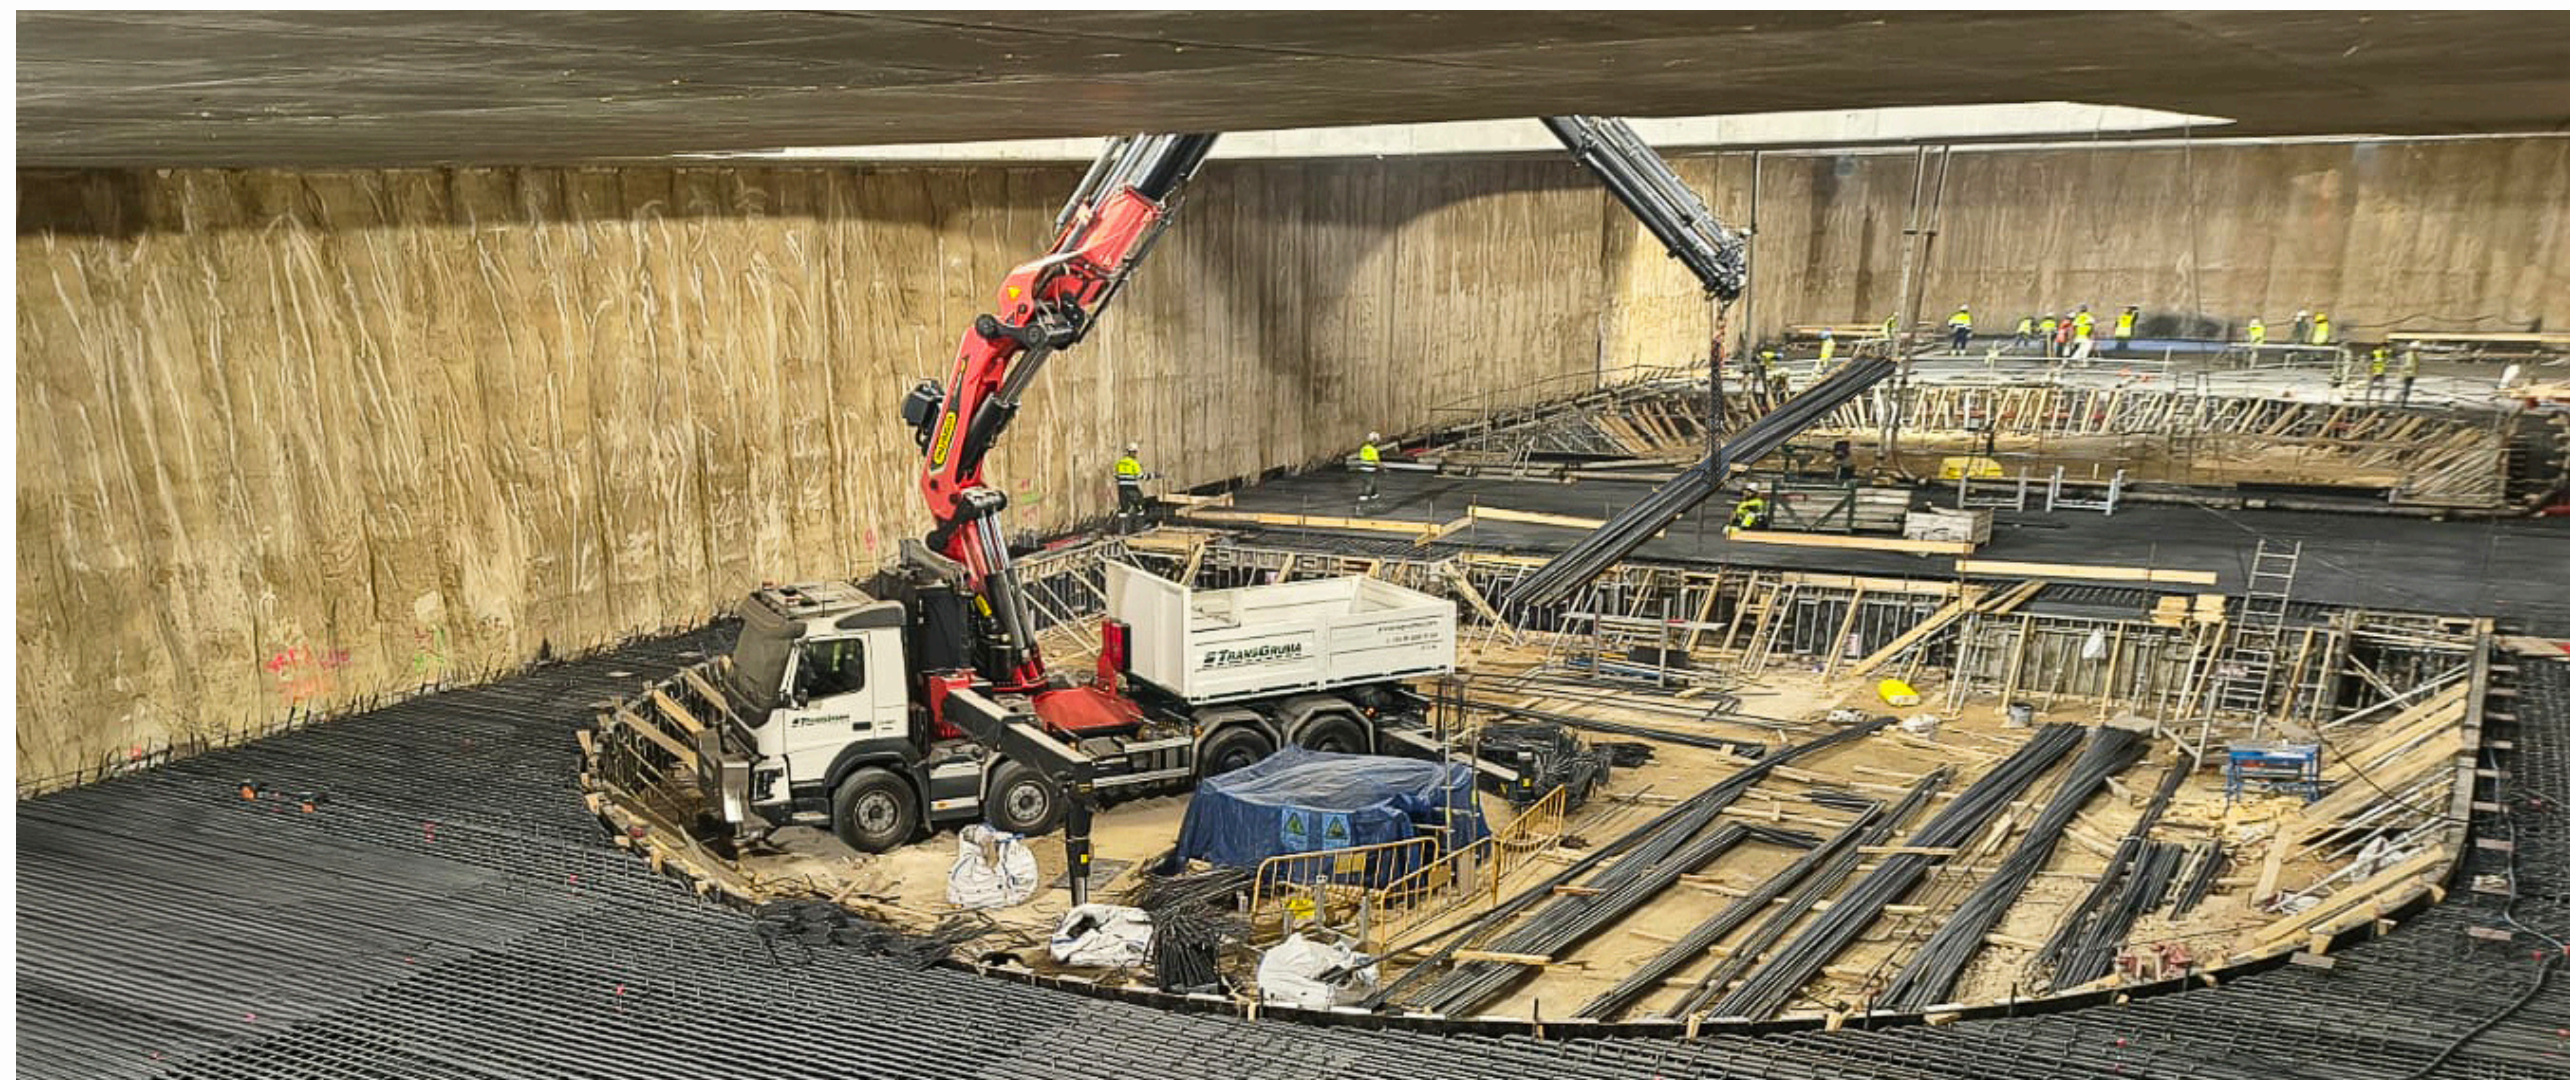

Qualified professionals who guarantee safe and precise execution.

Technical advice

Prior analysis of each maneuver to define the most suitable solution.

Our goal is clear: that every maneuver is carried out safely, efficiently and with the most suitable equipment.

Four pillars in every service

Safety

Safety in every operation, in every maneuver.

Technical guarantee

Before, during and after the service.

Professionalism

Qualified operators, technicians and sales team.

Adaptability

To construction sites, urban environments, industry and special projects.

SERVICE AREAS

Six specialties, one technical standard

Load lifting and special transport

Personnel lifting

**Concrete pumping and
distribution**

Industrial machinery relocation

Industrial vehicle workshop

Specialized technical training

SERVICE AREAS

Load lifting

We have truck-mounted cranes, spider mini-cranes and telescopic cranes for loading, unloading, assembly, positioning and hoisting work.

- ✓ Solutions for tight spaces
- ✓ Long reaches and heavy loads
- ✓ High-precision maneuvers

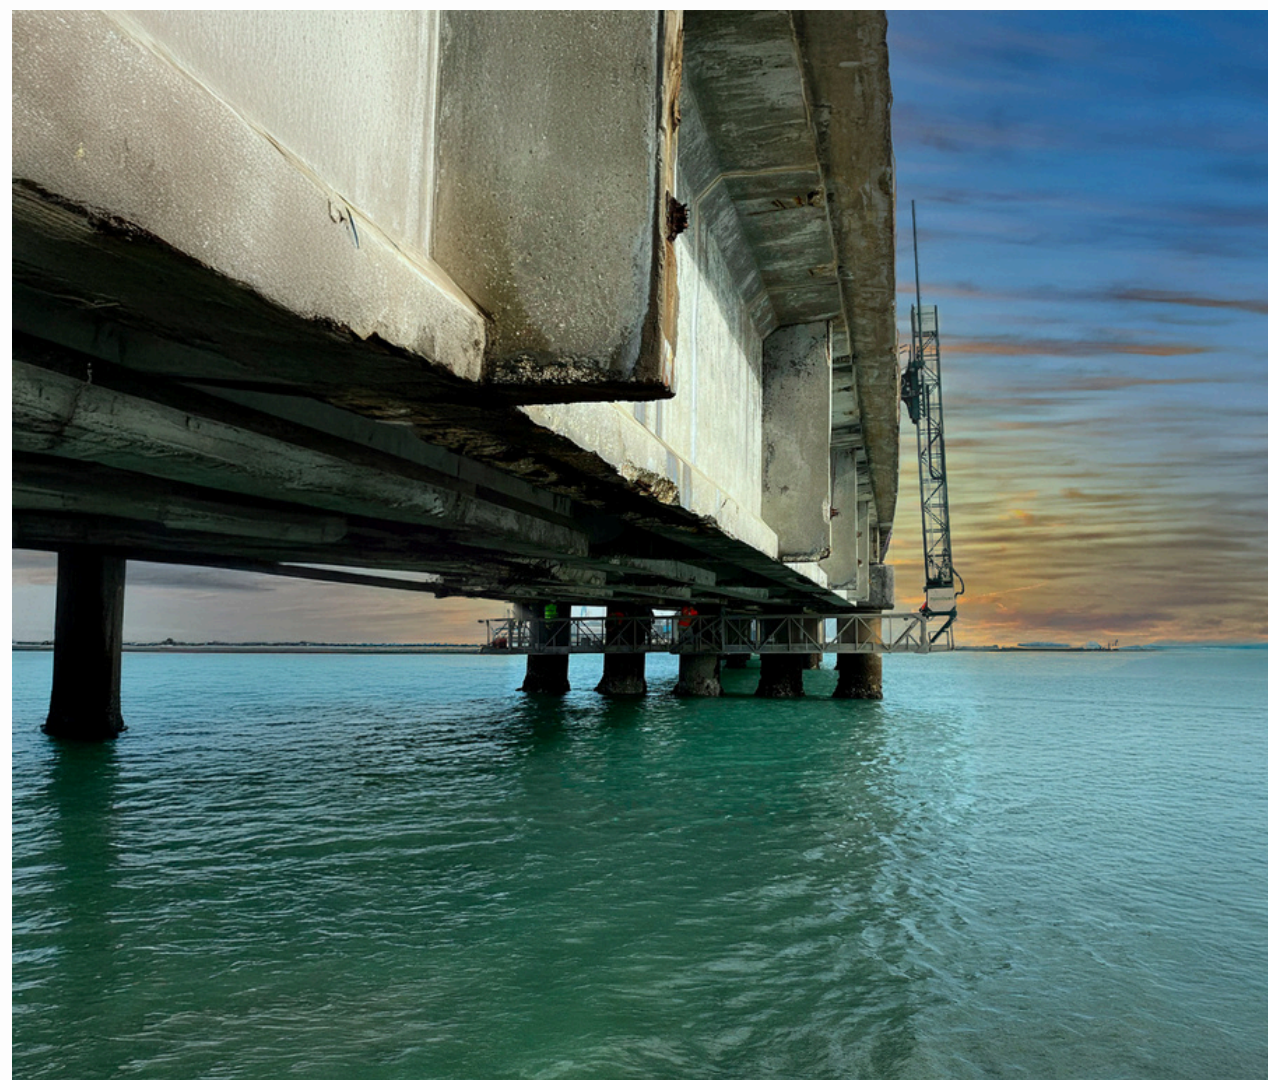

SERVICE AREAS

Lifting of people

Truck-mounted lifting platforms for working at height with operator, adapted to each environment.

- ✓ Maintenance, construction and industry
- ✓ Infrastructure, facades and facilities
- ✓ Pruning, lighting and special negative works

SERVICE AREAS

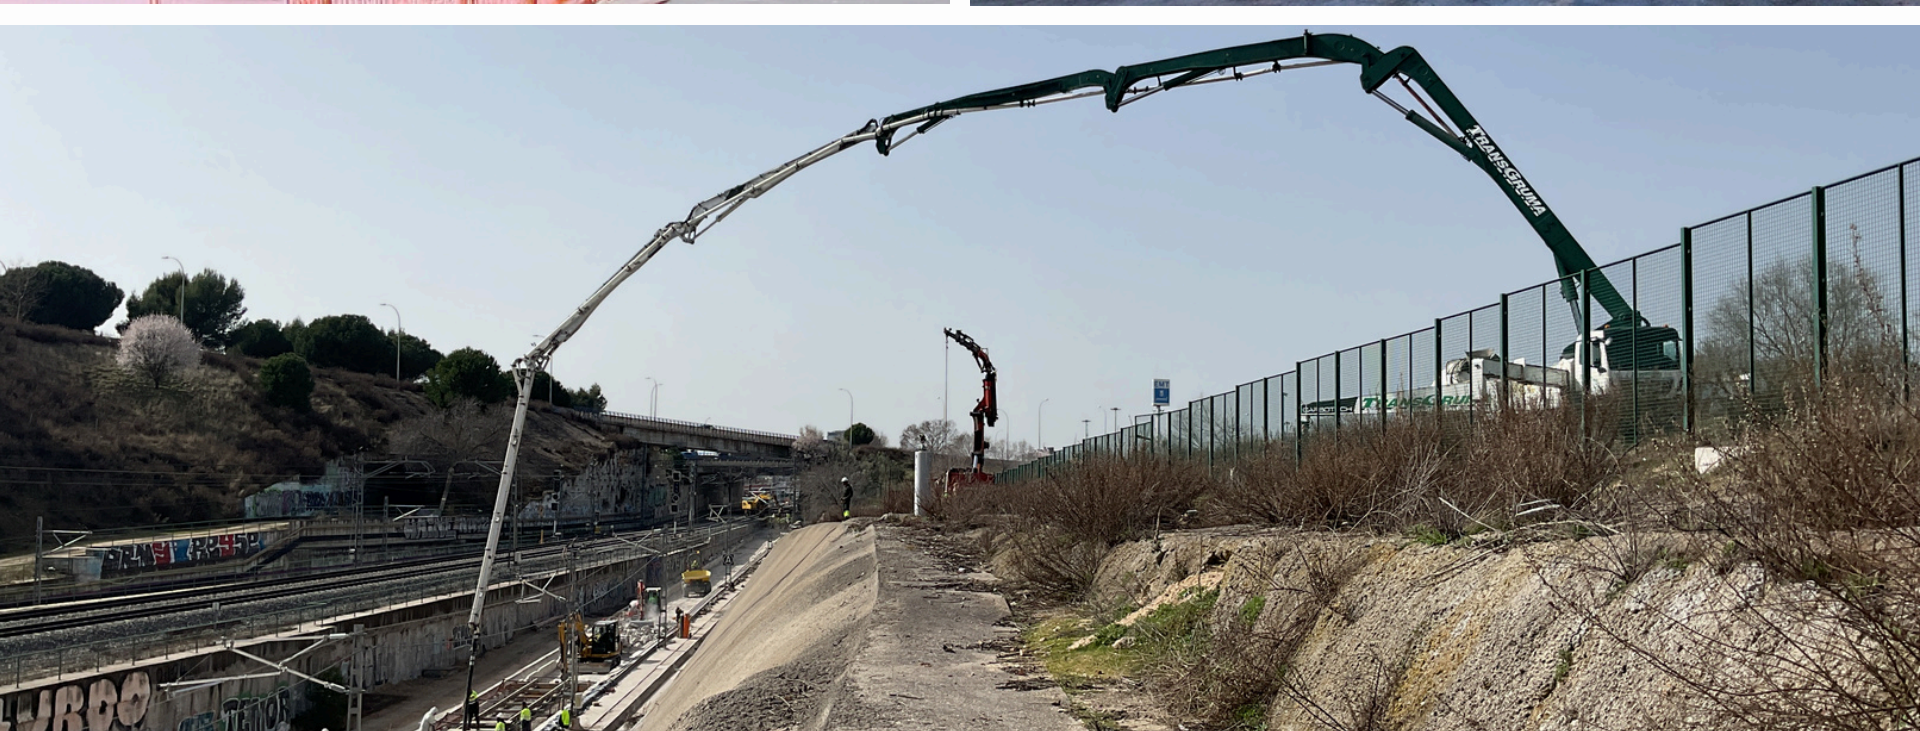

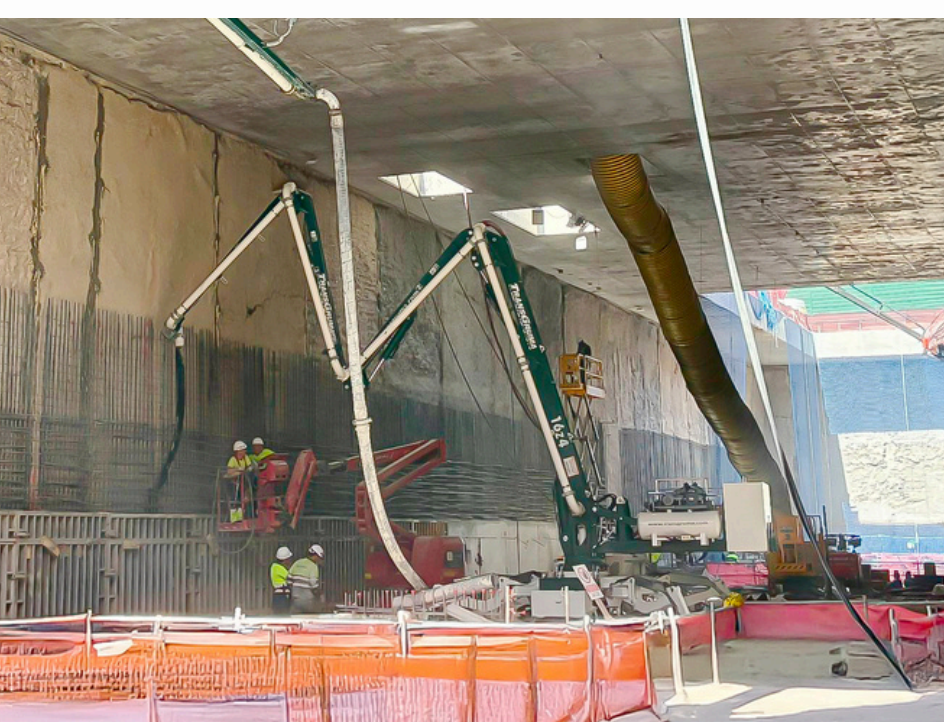

Concrete pumping

Truck pumps, stationary pumps and special solutions for pumping and distributing concrete.

- ✓ Works with complex access
- ✓ Long distances and demanding altitudes
- ✓ Unconventional pumping needs

SERVICE AREAS

Special transport and machinery movement

Technical transport of machinery, industrial equipment and special loads.

- ✓ Transfer and handling
- ✓ Precision positioning
- ✓ Commissioning of heavy or delicate machinery

ENGINEERING AND PLANNING

Before running, we analyze

We study access, loads, working radii, supports, interferences and environmental conditions to define the safest and most efficient solution.

Access

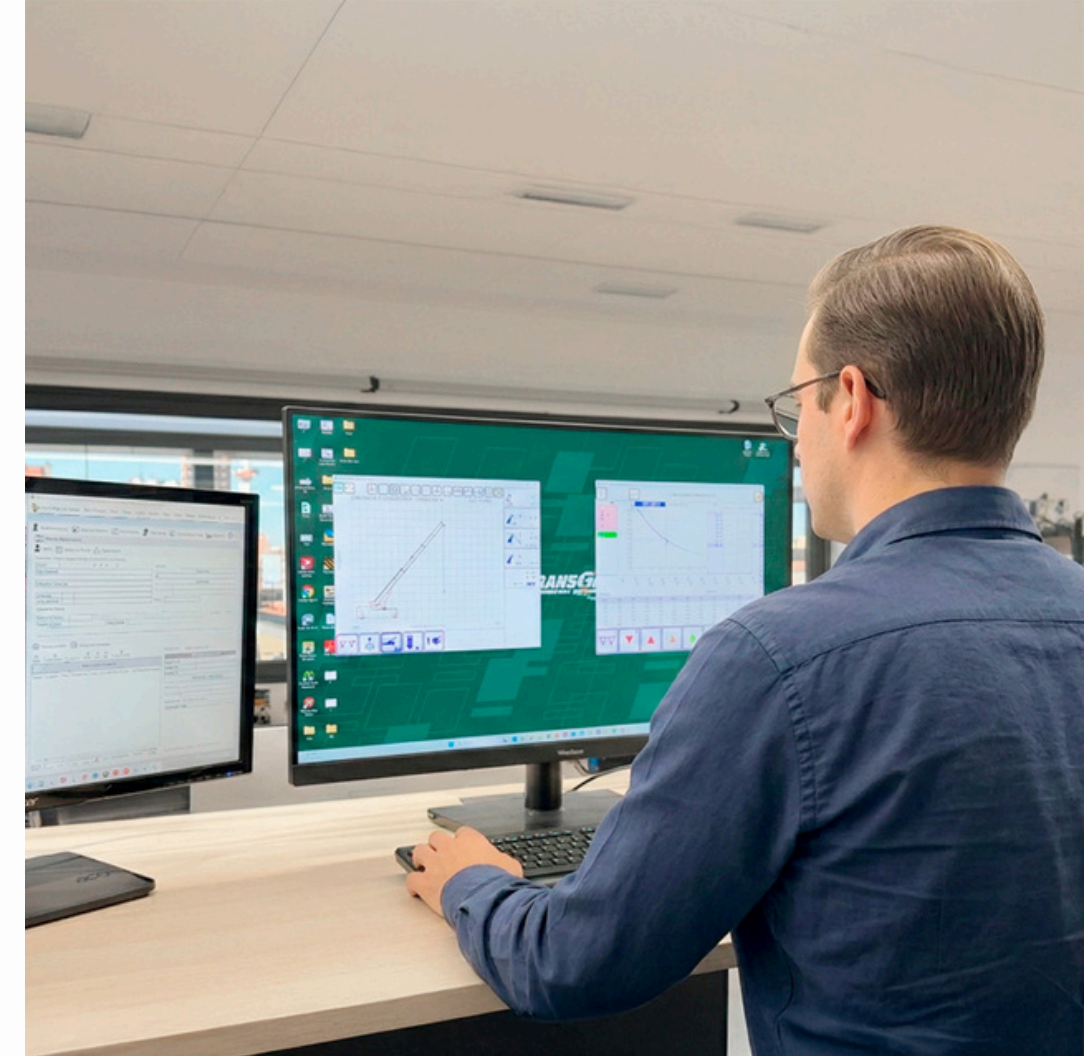

Loads

Working radii

Support

Interference

**Environmental
conditions**

SAFETY AND PREVENTION

Safety is not an extra: is the starting point

Qualified operators

Defined work procedures

Preventive maintenance

Technical culture focused on reducing risks

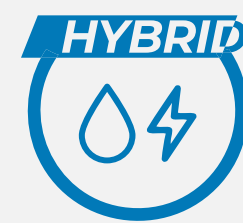

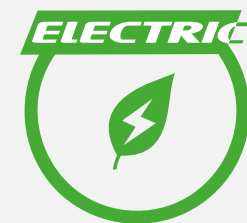

ISO 9001
ISO 14001
ISO 45001

BUREAU VERITAS
Certification

INNOVATION AND SUSTAINABILITY

Higher performance with less operational impact

We are renewing our fleet by incorporating more efficient equipment, hybrid and electric solutions, and machinery adapted to urban environments and low-emission zones.

- ✓ Renewed fleet
- ✓ Hybrid solutions
- ✓ Electrical solutions
- ✓ Low emission zones

Technical presence in multiple sectors

Construction and civil works

Infrastructure

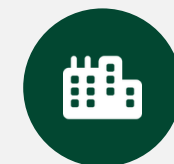

Industry and maintenance

Energy

Logistics and transport

Urban services

Trade, events and special projects

A commitment that also elevates

At Transgruma we promote social, solidarity and sporting initiatives that generate a positive impact on our environment.

Through projects like Grúa Solidaria, we dedicate part of our activity to supporting entities with a real and sustained social work.

Solidarity, closeness and continuity guide our commitment.
