

Truck-mounted mobile personnel lifting platform

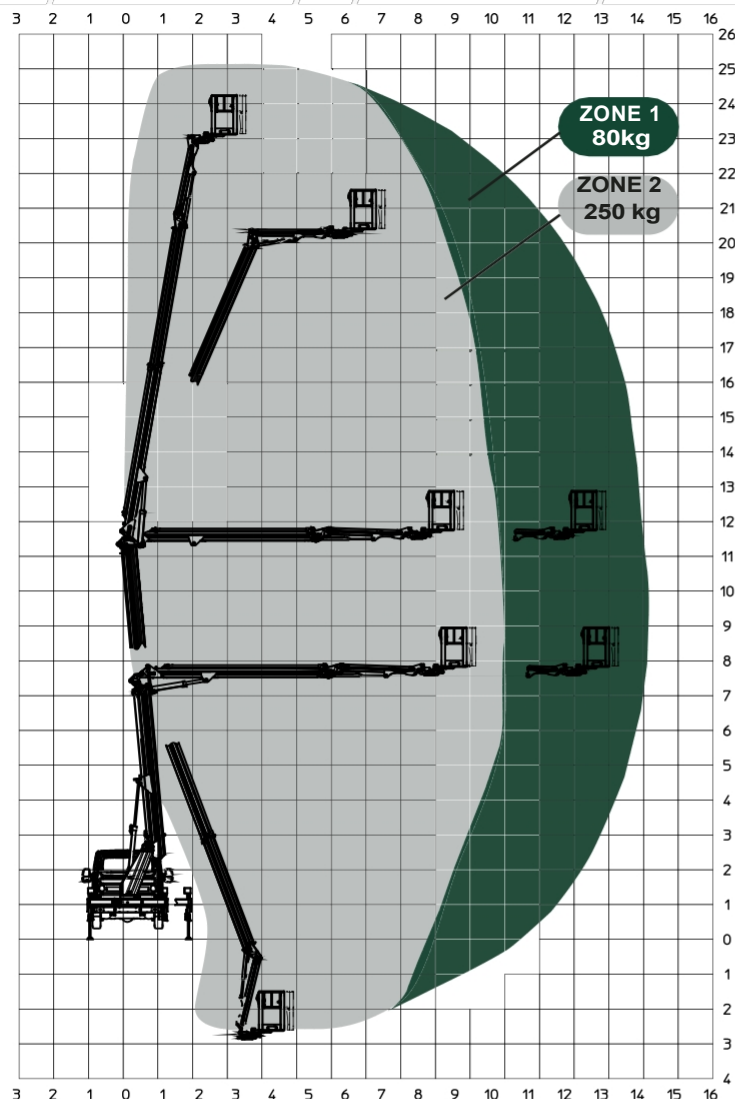

MEWP 25M

A truck-mounted aerial work platform with a working height of 25.10 m, compact and highly manoeuvrable for accessing difficult-to-reach areas. It offers a wide lateral reach and an articulated boom for precise positioning. The turret rotates through 400° and the self-levelling basket swivels through $\pm 90^\circ$, making it ideal for maintenance, installation and urban and industrial work.

Compact (3.5 t) and fast: 25.10 m of working reach with an articulated boom to reach places others can't.

Technical information

Working height (max.)	25.10 m
Platform height	23.10 m
Horizontal working reach (max.)	14.35 m
Basket load capacity (max. weight persons)	250 kg 2
Rotation speed of the turntable Maximum	400°
permissible wind speed Basket / Work platform	12.5 m/s
Total weight	Multitel
	3,500 kg

Dimensions in transport mode

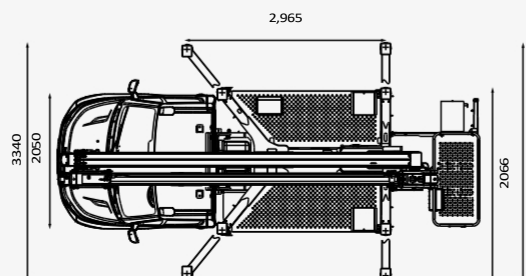

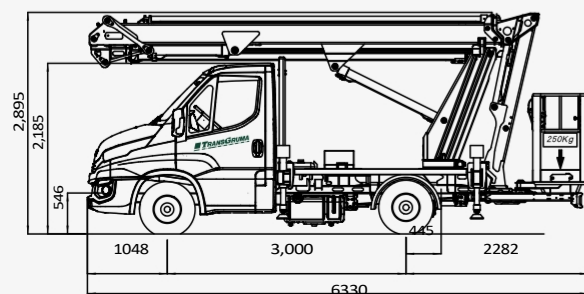

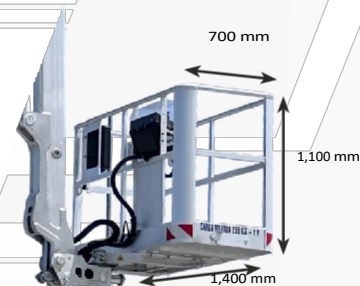

Length	6.33 m
Width	2.05 m
Height	2.89 m

Support system – Stabilisers

Maximum width between stabilisers	3.40 m
Width of stabilisers on one working side	2.06 m
Length between front and rear stabilisers	2.96 m

Work platform

(see technical information on page 24)

Elevamos su confianza

Hire of equipment for lifting loads and people, and
for pumping concrete.

mini cranes | lorry-mounted cranes | telescopic cranes

specialised transport | aerial work platforms | concrete pumps |
