

Mini crane

MC100

JIB

HYBRID

The ultimate in power and reach within the range. It combines the strength of an articulated crane with the mobility of a mini-crawler crane. Designed for technically demanding projects.

Technical information

Maximum capacity	15,500 kg
Maximum vertical reach (with jib)	32 m
Maximum horizontal reach (with jib)	30 m
Winch length (below support level)	60 m
Engine	Hybrid (diesel + electric)
Track pressure on the ground	0.85 kgf/cm ²
Ground reaction via stabilisers	11,250 kg
Total weight (Crane: 13,850 kg Counterweight: 3,500 kg Jib: 1,200 kg)	18,550 kg

32m 30m

60m

- ✓ **Crawler chassis**, ideal for uneven terrain and difficult access points.
- ✓ **Unique hybrid design**: combines the reach of an articulated crane with the manoeuvrability of a mini-crane.
- ✓ **Highly versatile configuration**: mini jib, luffing jibs, glass suction pads and other attachments.
- ✓ **Access** where a lorry crane cannot operate whilst maintaining high load-carrying capacity and reach.
